

CaseStack's GLOBAL TRANSPORTATION SERVICES

Whether it's from dock to destination or rail to retailer, CaseStack delivers complete, worldwide transportation management services solidified by strategic relationships with domestic and international providers of all modes, including:

- Less-than-truckload (LTL)
- Truckload (TL)
- Air
- Ocean
- Rail

Utilizing our strategic relationships with trusted carriers, CaseStack experts garner customers the most competitive industry rates. Dedicated account representatives manage each order's progress, including navigating front end paperwork, tracking shipments and verifying delivery to ensure the proper arrival of goods. As a result, our customers benefit from:

- Increased on-time delivery
- Improved transit time
- Reduced costs
- Reduced damages

Our ultimate goal is to provide customers with innovative transportation services that ensure on-time and under budget delivery. To achieve this, our team of logistics experts builds a personalized logistics infrastructure for each customer, providing:

- Carrier selection
- Performance monitoring
- Rate negotiation
- Claims processing
- Freight bill auditing & payment

CaseStack is committed to exceeding expectations and improving each customer's bottom line by offering competitive rates, providing exceptional customer service, streamlining the ordering process and providing 100% order visibility. CaseStack's real-time proprietary web-based order management system is available 24/7 anywhere in the world and enables customers to:

- Access rate quotes
- Check claim status
- Obtain routing information
- Request proof of delivery
- Track shipments
